Bruce, one of our IT staff thought the email size limit was 8 MB, but I think it is actually 24 or 25 MB. The emails that did come through were larger than 8 MB.

Bruce, I have not yet received any further emails with attachments. Our email size limit is about 8 MG. Do you know if these four emails have larger attachments?

Working on it. Do you have a size limit on your inbox? Also, there ended up being a tenth email with file. Did you get that?

Bruce,

Thank you for scanning and sending these files. I received sets 2-6 and 8, but not sets 1, 7 and 9 (other than the forwarded message below). Can you resend sets 1, 7 and 9?

Thanks,
Brett

To clarify, the Olcese-Poso files were delivered to you, but as two big files, without separating the component letters, reports, etc from each other as I did with the other portfolios.

Please call if there are any questions or difficulties.

> Three things to note. First, if you can't open PDF Portfolios, they can be extracted by your IT folks to their component files, I believe. Let me know if this is not the case. Second, I was unable to break out the Olcese Exemption file into its component documents in time to make this delivery. Third, I did not get time to scan the Asphalto/Tulare exemption file, but will do so this week. I believe other aquifer exemption files exist, and am pursuing them.
